Subject SWAT video

To Ms. Renee Barrett
Fitness Director
NASA Glenn Research Center
21000 Brookpark Road, MS 341-1
Cleveland, Ohio 44035

Ms. Barrett:

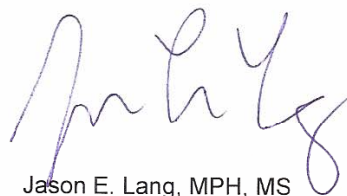

Enclosed please find a CD-ROM of the SWAT video that was produced through interviews with Yellow Brick Road earlier this year as a follow up to your SWAT project with the CDC Division of Nutrition, Physical Activity, and Obesity. The CD-ROM contains both a short finished piece entitled "Sustainability and an Aging Workforce" focused on NASA's wellness practices as well as the outtakes and raw footage of interviews with management and leadership shot during the interview day.

We very much appreciate your time and involvement in this process. We thank you for allowing us access to your company facilities and staff in order to conduct the interviews and for your thoughtful review of the rough cuts of the material. We hope that you will be able to utilize the footage for your internal promotions. Your organization has wonderful people who are truly committed to the health and well-being of their employees and this made for a rich and informative video product.

At some point in the future we plan to post these materials to our CDC business web portal to showcase the work of the SWAT sites and allow for peer to peer learning among business leaders through a video on demand weblink. This site is still under development, but we will share with you the launch date when it is certain.

If you have any additional questions in the interim, please feel free to contact me at the number above. Thank you again for your participation and I look forward to being able to work with you in the future.

Sincerely:

A handwritten signature in blue ink, appearing to read 'J. Lang'.
